

Title: Get up to go forward

Failing forward means still trying and making mistakes

When we fail, we need to keep going and know you don't get all the greats

If we give up when we fail, we won't get our goal

It is important to fail forward because you can get your dream whole

When I fail I keep trying so I can get it right I learn the most when I can have my dream and see the light

I will never give up because I am strong and tuff.

When I try again I feel great because I can have other dreams and stuff

Failing forward is awesome and great, remember not to have hate.
